

Community pharmacy technician: advancing your role

Are you looking for a supportive programme to develop your role in community pharmacy?

The landscape in community pharmacy is changing. Community pharmacy is delivering an increasingly extended range of clinical services, and this will only continue. As services develop, roles will change and the skill mix of the team will be more effectively used.

Developing clinical skills is a fantastic opportunity for you as a pharmacy technician. It's a way for you to create opportunities for your career and be ready for the future of community pharmacy. You can...

- ✓ Increase your clinical knowledge and clinical assessment skills
- ✓ Network with fellow pharmacy technicians who are at a similar point in their professional development
- ✓ Improve your confidence in being able to support people using your services and maximise the business potential of your workplace.
- ✓ Talk with an education supervisor to understand your individual needs so you can work through the programme at your own pace to meet your own needs.

Book here for your place on the [Community pharmacy technician: advancing your role programme.](#)

Places are available until March 2024.
