

Community pharmacy technician: advancing your role

Looking for a supportive programme to develop your role in community pharmacy?

Developing clinical skills is a fantastic opportunity for you as a pharmacy technician to develop new skills, create opportunities for your career and be ready for the future of community pharmacy.

This programme is focused on your individual development:

- ✓ Complete a learning needs analysis – a way for you to consider your current knowledge, and what you want to know from the programme, all to help you get the most out of it

- ✓ Talk with an education supervisor to understand your individual needs so you can work through the 4-month programme at your own pace

- ✓ Increase your clinical knowledge and assessment skills
- ✓ Network with fellow pharmacy technicians who are at a similar point in their professional development
- ✓ Improve your confidence in being able to support people using your services and maximise the business potential of your workplace

Book here for your place on the [Community pharmacy technician: advancing your role programme.](#)

Places are available until March 2024.
